

DIVERSITY OF MATTER

Living and Non-Living Things

B4.1.1.1: Understand the physical features and life processes of living things and use this understanding to classify them

B4.1.1.1.1: Classify animals into insects, birds, mammals and reptiles

B4.1.1.1.2: Know life processes of animals (movement, nutrition and reproduction)

B4.1.1.2: Understand the differences between living things and things which have never been alive

B4.1.1.2.1: Describe the physical appearance of different types of plants (trees, shrubs, climbing, creeping)

B4.1.1.2.2: Describe the physical features of mammals, reptiles, insects and amphibians

Materials

B4.1.2.1: Know the uses of materials in our environment

B4.1.2.1.1: Identify the uses of common materials (e.g. wood, metal, plastic, glass, fabric)

B4.1.2.1.2: Suggest suitable materials for specific purposes

B4.1.2.2: Understand mixtures, their types, components and ways of separating them into their components

B4.1.2.2.1: Identify a liquid-liquid mixture and describe how to separate its components

B4.1.2.2.2: Describe the ways of separating insoluble solids from liquids

CYCLES

Earth Science

B4.2.1.1: Recognise that some events in our environment occur recurrently

B4.2.1.1.1: Demonstrate understanding of cyclic movements in the environment

B4.2.1.1.2: Describe the water cycle

B4.2.1.2: Recognise the relationship between the earth and the sun

B4.2.1.2.1: Identify the objects in the sky during day and night

B4.2.1.2.2: Describe the changes that occur from day to night

B4.2.1.3: Show an understanding of the roles of condensation, evaporation, transpiration and precipitation in the hydrological cycle

B4.2.1.3.1: Demonstrate the process of evapotranspiration

B4.2.1.3.2: Describe the water cycle in the local environment

B4.2.1.5: Recognise water and air as important natural resources

B4.2.1.5.1: Demonstrate ways of making water safe for use

B4.2.1.5.2: Describe ways of keeping air clean in our environment

Life Cycles of Organisms

B4.3.1.1: Show an understanding of the life cycles of plants and animals

B4.3.1.1.1: Describe the life cycle of a maize plant

B4.3.1.1.2: Describe the life cycle of a frog

B4.3.1.2: Show an understanding of metamorphosis in animals

B4.3.1.2.1: Describe the life cycle of a butterfly

B4.3.1.2.2: Describe the life cycle of a chicken
